

Accelerated Reader

This is a national program that St. Bonaventure adopted in 2008, through the funding and grant of the Amaturio Foundation.

The Accelerated Reader program combines the best in children's literature with an innovative software testing and management system that gives students, teachers and parents excellent, accurate feedback on comprehension and reading performance.

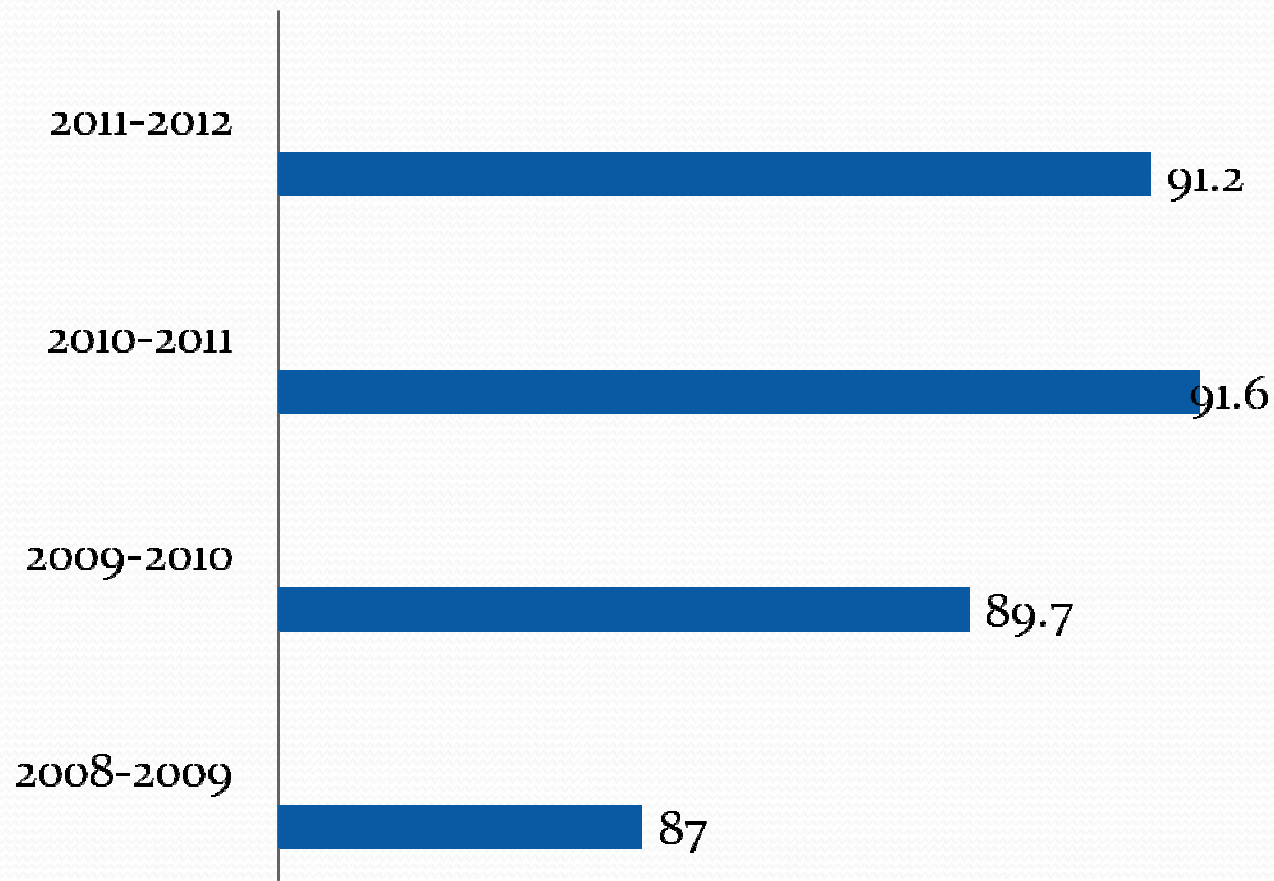

The Accelerated Reader program is a proven, powerful motivational tool founded on the psychological principles of the game motivational model. It was one of the programs cited as "*Highest Rated*" by the *Association for Supervision and Curriculum Development (ASCD)*.

Accelerated Reader

Accelerated Mathematics

Accelerated Math Enterprise helps teachers personalize math practice, differentiate instruction, monitor progress, and make data-driven decisions to guide each student to success.

This program has been added to the curriculum of Grades 3 and Grades 4. The program creates math assignments tailored to each student's current level and automatically scores all math practice.

The Star Math will be administered 3rd – 8th grade. This will assist in differentiating math instruction and addressing each student's individual needs.

Early Literacy

STAR Early Literacy Enterprise is the breakthrough computer-adaptive diagnostic assessment that helps identify key early literacy and numeracy reading skills quickly, accurately, and easily. The program provides reliable feedback on the progress of emerging readers (PreK₃ - 4) so St. Bonaventure can provide them with effective instruction and practice.
